

the STIX casegoods collection

STIX casegoods are a simple yet comprehensive collection of modular wood office furniture made from sustainable, FSC Certified, non VOC emitting and formaldehyde free core materials, veneers & finishes. The design philosophy is based on simple elegance and an interesting play of light and shadow. STIX showcases what can be done in the Corporate office environment with truly sustainable materials and finishes, while reinforcing that "green" furniture can be an important design element of the interior!

Companies with a commitment to sustainability can now satisfy their office furniture needs with a sense of responsibility to the environment.

Baltix Sustainable Furniture can support the following LEED-CI points*:

- recycled content
- regional & rapidly renewable materials
- certified wood,
- low emitting materials
- innovation in design

**Depends on project design, location and options*

STIX casegoods offer a unique blend of all veneer or veneer with solid color, powder coated components. The use of environmentally friendly & durable powder coatings, not only give the pieces a more contemporary look, but also reduces the amount of wood veneer required to create a "wood look"

GOOD FOR YOU AND GOOD FOR THE ENVIRONMENT!
